Key Skills

Leadership - My view on leadership is to inspire and lead by example. I believe leadership is about building consensus, focussing people on a common goal, supporting them in their needs and then inspiring them to achieve higher standards.

Service - As a pilot I enjoy the dual roles of serving both my company, by delivering safety and great on-time performance, and the customers on board by doing everything I can to enhance their flying experience. I thrive on personal contact and I love dealing with people face to face. I try to imagine how I would like to be better served in every aspect of the flying experience and work hard to pass that on to my customers and be the difference that keeps them coming back again and again.

Flexibility - I have learned the importance of always remaining flexible and open to change to work effectively in the fast changing airline business. A key skill I have developed is reacting constructively to short notice changes rather than resisting them, especially in the dynamic environment of the flight deck.

Interests and Hobbies

Cycling, outdoor pursuits, photography, adventure sports, wood working, fly fishing.
